

LeanSigma® Green Belt and Black Belt Certification

Advanced training from the Guidon Institute

Harness the synergy of Lean and Six Sigma in a seamless, integrated approach. No other program provides full certification together with LeanSigma training – giving you the toolset for superior results, in a fraction of the normal time.

Presented by Guidon Performance Solutions

Improve speed of
delivery and quality
of results in
your business.

What You Will Learn

LeanSigma Green Belt Certification

- LeanSigma, the process which combines Lean and Six Sigma into a single, coordinated initiative
- Kaizen methodology, a critical Lean tool
- Advanced Six Sigma statistical problem-solving tools
- LeanSigma methodology and how to use it to reduce project time from six months or more – to six weeks or less
- How to lead project teams within your area of responsibility to rapidly implement high-impact business improvement

LeanSigma Black Belt Certification

- Tools and techniques to accurately assess Voice of the Customer
- The rationale and process for project selection
- Key Lean for Service principles, including Kaizen and Value Stream Analysis
- LeanSigma, the process which combines Lean and Six Sigma into a single, coordinated initiative
- Advanced Six Sigma statistical problem-solving tools
- LeanSigma methodology and how to use it to reduce Black Belt project time from six months or more – to six weeks or less
- Hypothesis testing and Design of Experiments
- How to lead project teams to rapidly implement high-impact business improvement

LeanSigma® Green Belt Certification

A 9-week program conducted by the Guidon Institute

Three weeks of training, with approximately six weeks of mentored project work.

Guidon Green Belt Certification Strategy

- Three one-week training sessions including a simulation to experience the Kaizen methodology
- Two weeks are between the first and second training weeks. Four weeks are between the second and third training weeks.
- Projects will be selected with the guidance of our instructors, who will mentor you online and by phone as you progress through training.
- Certification is provided upon successful completion of classroom training and two projects with proven proficiency in Green Belt tools.

LeanSigma® Black Belt Certification

A 14-week program conducted by the Guidon Institute

Four weeks of training, with approximately ten weeks of mentored project work.

- Four one-week training sessions including a simulation to experience the Kaizen methodology and advanced topics targeted for Black Belts.
- Two weeks are between the first and second training weeks. Four weeks are between the second, third, and fourth training weeks.
- Projects will be selected with the guidance of our instructors, who will mentor you online and by phone as you progress through training.
- Certification is provided upon successful completion of classroom training, two projects with proven proficiency in Green Belt tools, and satisfactory performance of the LeanSigma exam.

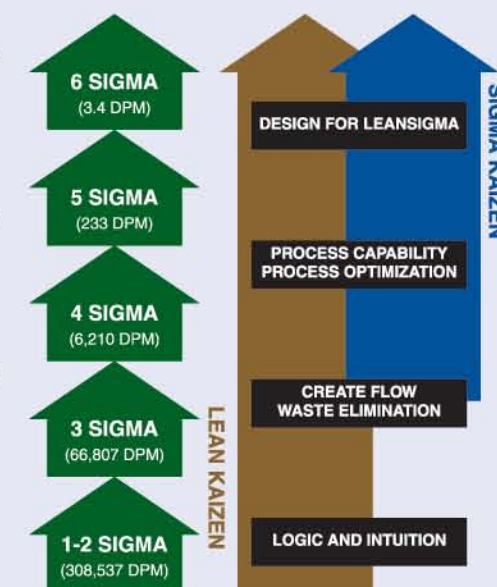

The Difference: SigmaFocus

Green and Black Belts are helping hospitals, banks, insurance companies, government agencies, and other service businesses across the globe drive rapid, dramatic new efficiencies and superior bottom-line performance.

SigmaFocus dramatically accelerates Six Sigma

Guidon developed the breakthrough SigmaFocus process to "Lean out" Six Sigma – and cut months of time from Green and Black Belt projects, while producing superior results. You'll discover how to consistently achieve major new efficiencies and business improvement in a fraction of the time of typical Green or Black Belt projects – and learn how to apply this knowledge throughout your company.

- Combines the best of Lean and Six Sigma concepts
- Uses the power of Kaizen for speed, action and immediate improvement
- Focuses on entire value chain
- Is team-based, not "solo," dramatically increasing the potential for sustained improvement
